

PROGRESSIVE STANDARDS IN ICT FOR ACTIVE AND HEALTHY AGEING

Making ICT standards fit for Active and Healthy Ageing in Europe

Thursday 19th of October 2017
CEN-CENELEC Management Centre, Brussels, Belgium

09:30 – 10:00 REGISTRATION

10:00 – 10:30 OPENING SPEECHES

10:00 – 10:10 **The PROGRESSIVE project**
Malcolm Fisk, Senior Research Fellow, De Montfort University

10:10 – 10:20 **A European perspective**
Christoph Klein, Project Officer, European Commission, DG CNECT

10:20 – 10:30 **The European standardisation system and its relation
to research and innovation**
Andreea Gulacsi, Unit Manager, CEN-CENELEC

**10:30 – 11:30 STAKEHOLDERS' PERSPECTIVES:
WHAT are the priorities for ICT for AHA standardisation**

*Session moderated by:
Frederic Lievens, Co-director, Telehealth Quality Group (TQG)*

An older people's perspective
Peter Rayner, Transport adviser, National Pensioners Convention

A policy maker’s perspective

Inmaculada Placencia, Deputy Head of Unit, European Commission, DG EMPL

An industry/designer’s perspective

Hugo Silva, Chief Innovation Officer, Plux Wearable Devices

A national standardisation body’s perspective on co-creation

Marlou Bijlsma, Healthcare Programme Manager, NEN

11:10 - 11:30

Q&A and wrap-up

11:30 – 11:45

Coffee break

11:45 – 12:45

STANDARDS USE: WHY ICT for AHA standards are instrumental in fulfilling older people’s needs in real-life

Session moderated by:

Stephan Schug, Chief Medical Officer, European Health Telematics Association (EHTEL)

PROGRESSIVE approach to use cases and standardisation

Diane Whitehouse, Principal eHealth Policy Analyst, EHTEL

An integrated care use case: Benefitting from standards and interoperability in Health and Social Care

Ester Sarquella Casellas, Business Development Director for Digital Health, Tunstall Healthcare, Spain

A social care use case: Supporting networking of digital services for older people

Viviane von Döllen, Organisational Development, Stéftung Hëllef Doheem, Luxembourg

12:20– 12:40

Q&A and wrap-up

12:40 – 13:40

Networking lunch

13:40 – 15:30 PROGRESSING AND COORDINATING STANDARDISATION FOR ACTIVE AND HEALTHY AGEING: HOW and WHERE

13:40 – 13:55 **The role of international standards in changing the way we deliver goods and services in the future. ISO/TC proposal for a new TC on Ageing Societies**

Robert Turpin, Market Development Manager, BSI

13:55 – 14:05 **Select, simplify, fix: How Continua, IHE and other profiles contribute to making standards fit for purpose**

Michael Strübin, Program Director Europe, Personal Connected Health Alliance

14:05 – 14:15 **Mapping the coordination in ICT standardisation for AHA**

Estelle Huchet, Project Officer, AGE Platform Europe
Fernando Machicado, Programme Manager, UNE

14:15 – 14:30 **Q&A on standardisation systems, actors and mapping**

14:30 – 15:00 **Breakout sessions: Exploring potential solutions**

Attendees will work together in small groups to brainstorm and discuss possible solutions on how to better coordinate the different ICT for AHA standardisation initiatives, committees, organisations and stakeholders

15:00 – 15:45 **Reporting on breakout sessions and open debate**

*Session moderated by:
Fernando Machicado, Programme Manager, UNE*

15:40 – 16:00 WRAP-UP AND NEXT STEPS

Malcolm Fisk, Senior Research Fellow, De Montfort University

EVENT RATIONALE

The main objective of the workshop is to promote a fruitful debate among stakeholders (including older persons) searching for optimum approaches to standardise ICT-based products and services that aim to answer the needs of an ageing population. The workshop will address three main topics:

- (1) Raising awareness on the need to adopt more inclusive standardisation processes;
- (2) Discussing use cases of ICT standards for active and healthy ageing;
- (3) Proposing future directions to improve ICT standardisation and ensure it standardised products and services are suitable for older people.

The morning sessions will mainly be an opportunity to present, discuss, and collect data while the afternoon will leave more room for debate so that attendees have the opportunity to share their opinions and expectations with regard to the set-up of a new coordination body for ICT standardisation works in relation with active and healthy ageing.

PRACTICAL INFORMATION

- **Place:** [CEN-CENELEC](#), Avenue Marnix 17 (4th floor), B-1000 Brussels, Belgium
The venue will be accessible to people with reduced mobility
- **Price:** The event is free of charge
- **Language:** English only
- For more information, please contact Fernando Machicado: fmachicado@une.org

ABOUT PROGRESSIVE

PROGRESSIVE is an EU-funded project that will help make sure that standards take account of the voice of older people and contribute to the creation of environments where, as we age, we can all have better access to products and services. PROGRESSIVE includes a multi-stakeholder consortium with 10 partners from 6 European countries; 4 standardisation bodies are included.
